How to manage My Orders?

1. Create an order

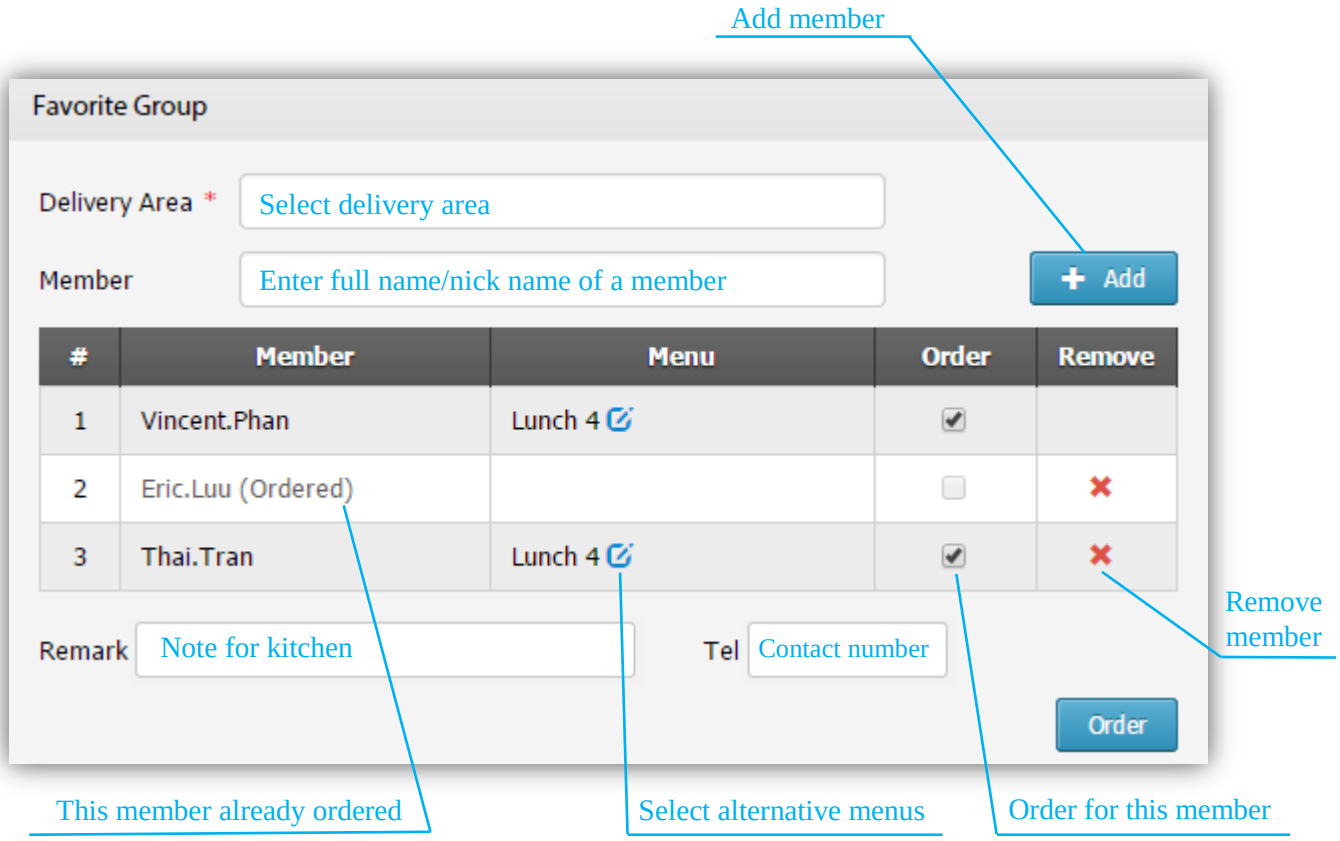

1.1. Order for New Group

'**New Group**' helps you create a main dish order for yourself or any employees of the same company. These order details will not be saved for next orders.

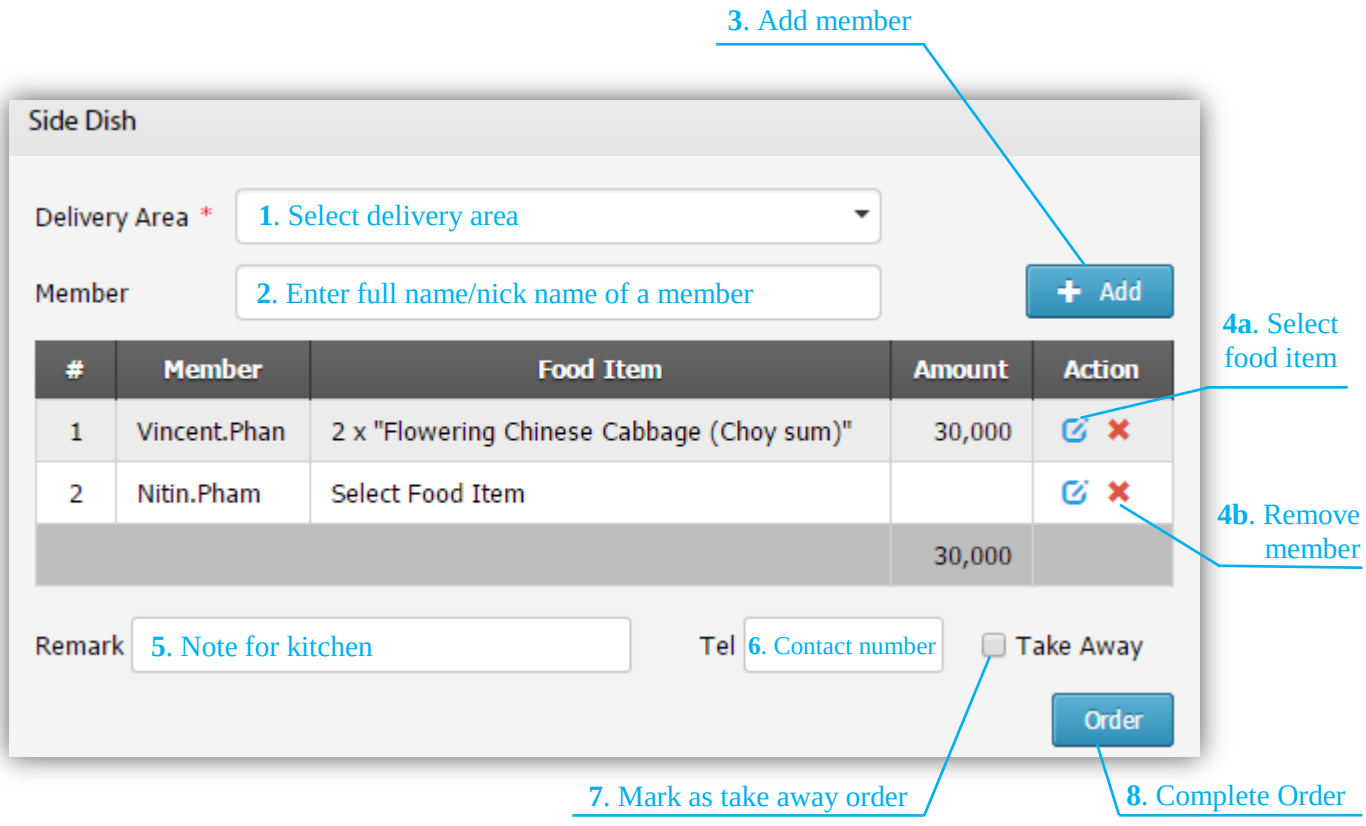

1.2. Order for Favorite Group

A favorite group is a group of employees of the same company that is preferably put together in the same order. '**Favorite Group'** helps you create a main dish order for yourself or your Favorite Group. These order details will be saved for next orders.

1.3. Order Side Dish

You can add more additional food items and this will result in a fee charged to you.

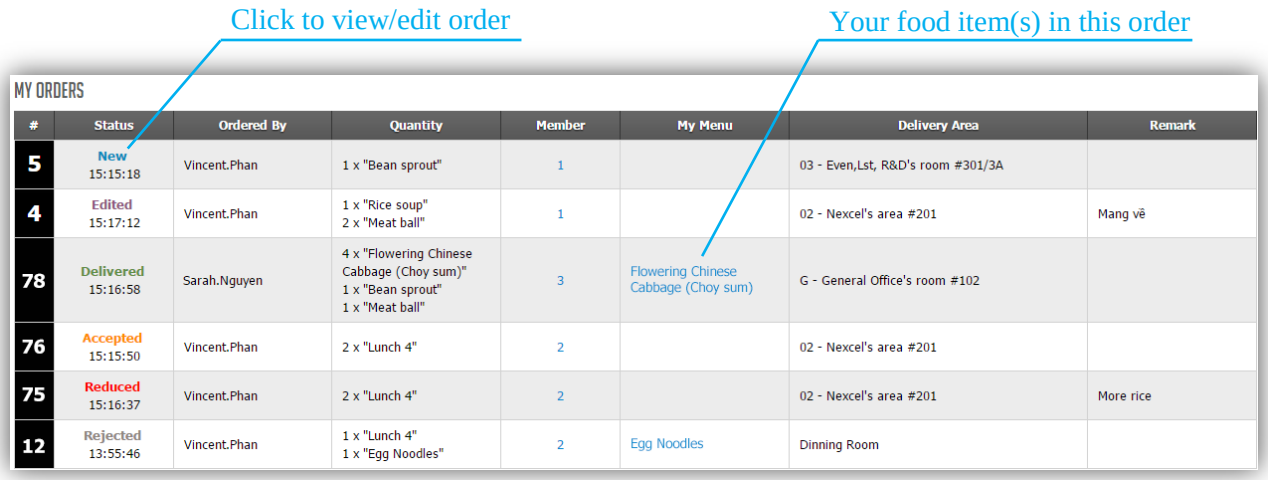

2. Manage my orders

This group of functions helps you check statuses of your orders as well as customize them.

2.1. View my orders

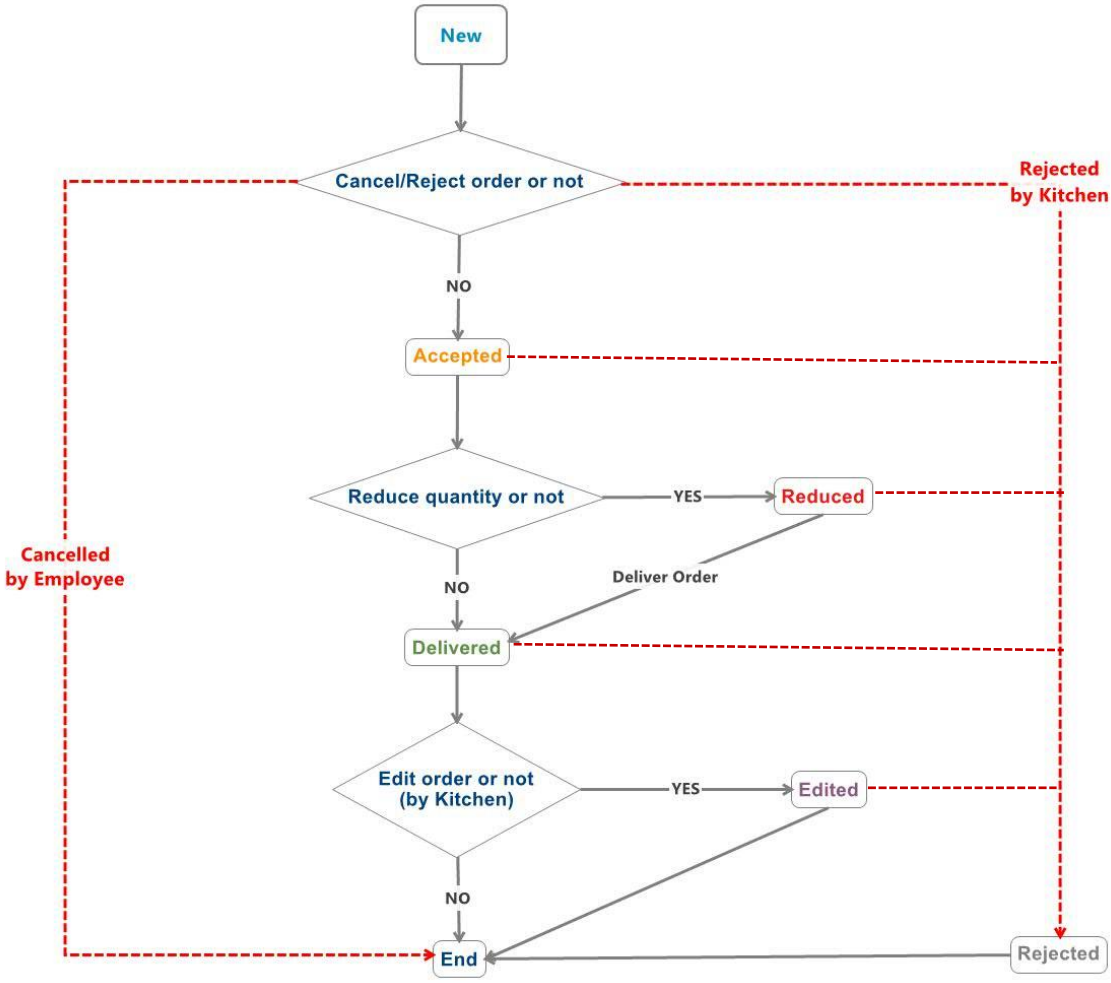

'**My Orders**' contains all orders related to you.

There are 6 order statuses including:

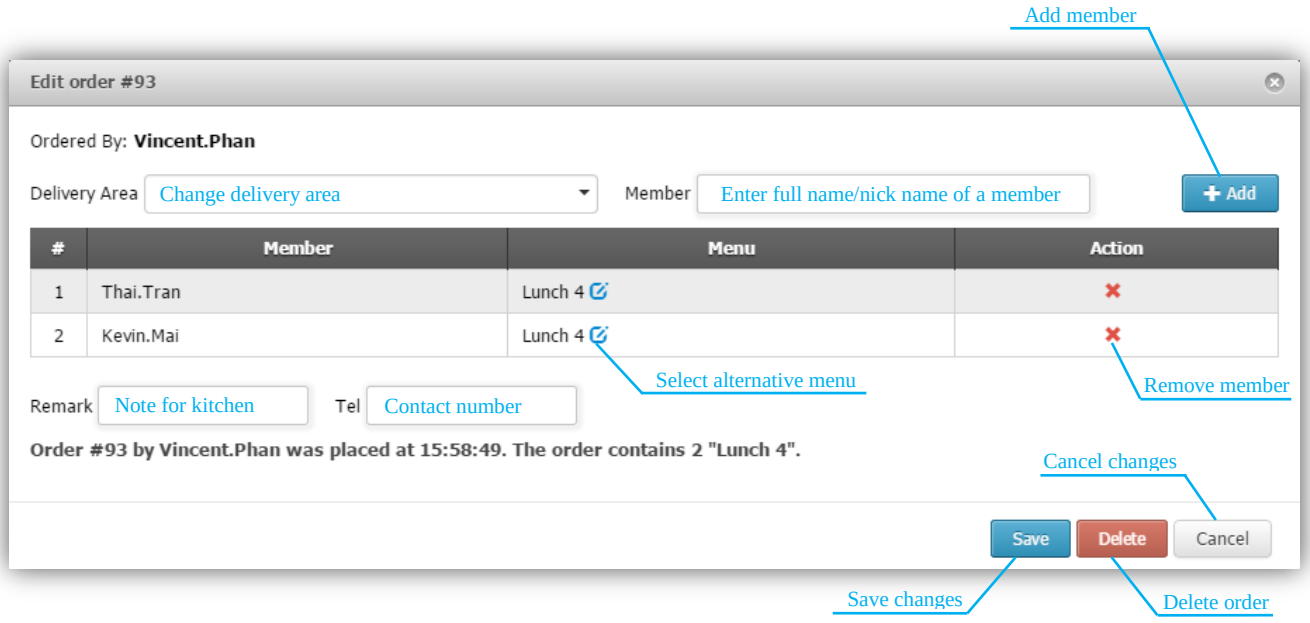

- **New**: New order.
- **Accepted**: Order accepted by kitchen staff.
- **Reduced**: Package quantity reduced.
- **Delivered**: Order delivered.
- **Edited**: Order edited by kitchen staff.
- **Rejected**: Order rejected by kitchen staff.

Refer to **Status Flow Diagram** below to understand their meanings.

Status Flow Diagram

2.2. Edit order

The table below describes your permissions in each status of your order.
